

TALOS T60X

Introducing the Talos T60X – the ultimate high-performance agricultural drone, engineered to transform the future of farming. With advanced features designed for maximum efficiency and precision, the T60X delivers unmatched spraying and spreading capabilities.

Magnetic Drive Impeller Pump

The magnetic transmission design completely isolates the pesticide from the motor, making the aircraft corrosion-proof and ultra-durable. Quick disassembly for easy cleaning.

Dual Atomized Centrifugal Sprinkler

The spray disc ensures even drops and efficient pesticide usage. The proprietary centrifugal valve prevents leakage, reduces pesticide use, and avoids over-fertilization.

60 L

Spray Tank Capacity

130 LBS

Granular Payload Capacity

31 mph

Flight Speed

4.8 gal. per min

Flow rate
